

Northlake Homeless Coalition Governance Charter

I. Governance Structure

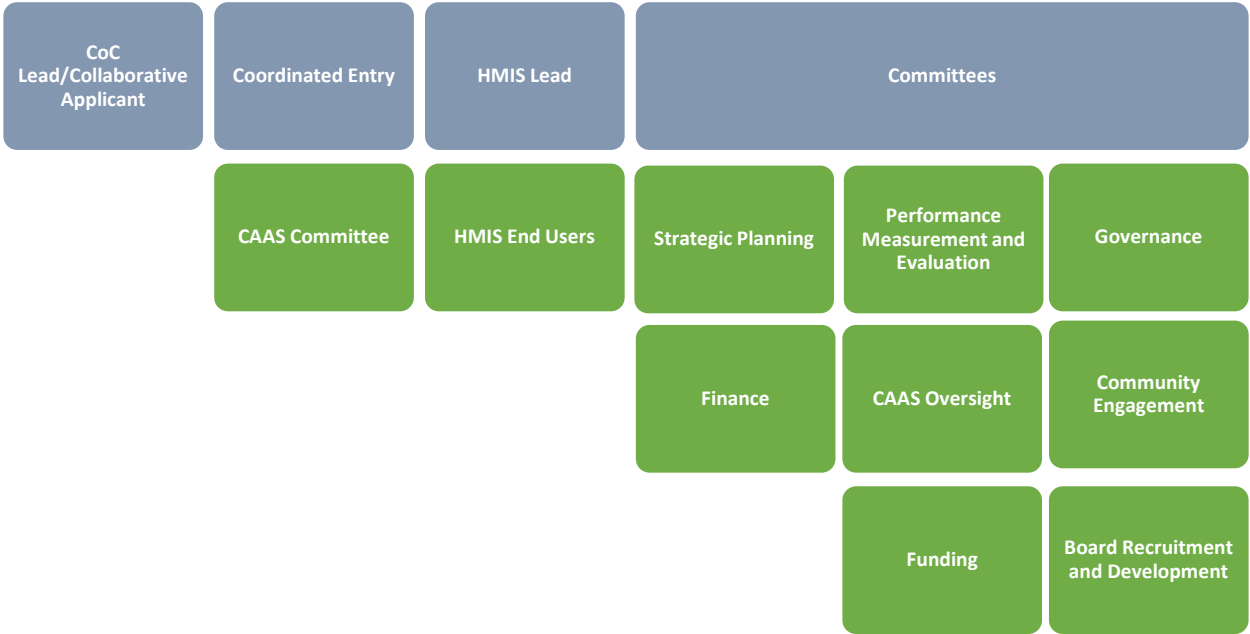

A. The Continuum of Care for the Florida Parishes Region, known as the Northlake Homeless Coalition, has established a board to act on its behalf. The NHC Board is reflective of and elected by the full CoC membership, hereafter referred to as the NHC Providers and Stakeholders Association. The NHC Board is the lead decision-making body responsible for managing community planning, coordination and evaluation to ensure that the system of homeless services and housing rapidly ends people's homelessness permanently. This includes planning for the use of U.S. Department of Housing and Urban Development CoC resources and coordinating these funds with other relevant resources in the region. Specific responsibilities include:

- Development of a plan for a coordinated housing and service system that meets the needs of individuals, unaccompanied youth and families experiencing homelessness. At minimum, the system will consist of outreach, engagement, assessment, shelter, housing, supportive services and prevention strategies.
- Plan and conduct an annual point-in-time count of sheltered and unsheltered homeless persons and conduct an annual gaps analysis of homeless needs and services.
- Participate in Consolidated Plans.
- Consult with Emergency Solutions Grant (ESG) grant recipients to plan for allocation of ESG funds and report and evaluate performance of ESG grant recipients/subrecipients.
- Evaluate performance of HUD-funded programs:
 - Establish performance targets in consultation with recipients/subrecipients that are appropriate to the program type and population served. Performance targets will be aligned with performance measures outlined in the HEARTH Act.
 - Monitor recipient/subrecipient performance.
 - Evaluate outcomes and report to HUD.
 - Take action against poor performers, including but not limited to: technical assistance, improvement plans and reallocation of funding.
- Establish and operate a coordinated access and assessment system that will:
 - Provide an initial and comprehensive assessment of the needs of individuals/families requesting assistance.
 - Cover the full CoC geographic area.
 - Be accessible and well-advertised to individuals/families seeking assistance.
- Establish and consistently follow written standards for providing CoC assistance, in consultation with the recipients of ESG program funds. These standards must determine:
 - Eligibility and prioritization criteria (beyond minimum HUD regulatory requirements) for transitional housing, rapid rehousing and permanent supportive housing resources.
 - Levels of rapid rehousing assistance and participant rent contribution across projects.
- Designate and operate a Homeless Management Information System (HMIS) and manage the following HMIS functions (further outlined in the Northlake Homeless Coalition HMIS Governance Charter):

- Designate a single HMIS for the CoC geographic area.
 - Designate a HMIS regional lead and a statewide HMIS lead to manage the HMIS.
 - Ensure that HMIS is administered in compliance with requirements prescribed by HUD.
 - Review, revise and approve HMIS privacy, security and data quality plans on an annual basis.
 - Ensure the consistent participation of recipients and subrecipients in the HMIS.
 - The Coalition will review, update and approve the HMIS Governance Charter annually during the Coalition’s annual meeting.
- B. Further information regarding NHC Board responsibilities, membership terms, code of conduct, and conflict of interest disclosure and resolution are defined in the NHC Bylaws. The NHC Providers and Stakeholders Association annually reviews and votes on any changes to the NHC Bylaws and the Governance Charter.
