

CALSoft 5

Compare Versions

	Full Version	Collect Only Version
Download, Install, & Activate from internet (no disc required)	X	X
Requires Internet connection for installation/activation	X	X
Maximum number of activations on different computers	2	1
Collect Heat Penetration & Temperature Distribution Data		
Collect Heat Penetration & Temperature Distribution Data	X	X
Import HP and TD data from Excel, Ellab, Datatrace	X	X
Manually Create (cut and paste) HP or TD data file	X	X
General Method accumulated lethality reports	X	X
Enter HP Test documentation (critical factors)	X	X
Record location/map of TD sensors during test	X	X
Print time/temperature data	X	X
Create & email HP (.chp) and TD (.ctd) files	X	X
Evaluate (plot) HP data with Ball Formula		
Evaluate (plot) HP data with Ball Formula	X	
Calculate process schedule with Ball Formula	X	
Analyze results from multiple HP test files	X	
Print HP evaluation reports, graphs, process schedule	X	
Zoom graph time/temperature data from HP & TD tests	X	
Analyze TD data (min/max analyzer)	X	
Print TD reports/graphs	X	
Evaluate process Deviations with Ball Formula	X
